## EPHRAIM COMMUNITY GARDEN

Good News! Ephraim City recently approved space for a community garden behind the Bishop's Storehouse on Main Street! The purpose of the garden will be to provide fertile ground, literally and figuratively, for our community.

A small education grant will be used initially for the first phase of the garden. Classes will eventually be offered in gardening techniques, canning, outdoor cooking, storage methods, and other fun and interesting subjects. Types of gardening will include pioneer, organic, square-foot, Mittleider, and Biodynamic methods.

Space will also be provided for people who do not have yards, and anyone who is interested, to grow their own food. A portion of the garden's harvests will be donated to the food bank for families and individuals in need.

In the future, the community garden will help to support a farmer's market, where fresh foods and locally made goods can be bought and traded.
