Steve Widmer, Financial Director

FLOODPLAIN UPDATE

Ephraim City has been working with the Army Corp of Engineers for many years to get the floodplain map updated. A representative of the Corp of Engineers updated the Council on the study to date.

The next step is to gather all paperwork required and submit that to FEMA. They have 90 days for review. It will most likely be spring before everything is complete.

Some residents will be removed from the flood zone which may impact their insurance rates. The City will do some public outreach. The last flood plain study was completed in 1976.

ADJOURN

There being no further discussion, Councilmember Wheeler moved the work meeting adjourn. The motion was seconded by Councilmember Nielson. The vote was unanimous. The motion carried.
